

UNICARRIERS TX AND BX SERIES ELECTRIC FORKLIFT

RENT ME!

PEAK PERFORMANCE

TX-M 3-Wheel Sit Down Forklift

Whether you are operating in narrow pallet rack aisles, moving large loads while loading or unloading trailers, or making long runs through the warehouse, UniCarrier's TX-M performs like no other. Both owners and operators love the TX Series for its low cost of ownership and many ergonomic features. It's no wonder the TX-M has become the operator's multi-purpose vehicle to get the job done efficiently.

Multi-function display provides at-a-glance views of critical functions:

- Battery discharge indicator
- Speed meter
- Hour meter
- Wheel indicator
- Warning icons
- Clock

- Lifting Capacities Up To 4,000lbs.
- Lifting Heights Up To 20'
- Full Suspension Seating
- Cushioned Stability Systems
- Hydrostatic Power Steering
- Onboard Self Diagnostics
- Instant Response Controls
- Hitachi Powered Controls

HOT ITEM

When long duty cycles and enhanced capacities are required, count on UniCarrier's Platinum BX Series to take center stage in your load handling operation. Built on UniCarrier's many years of experience manufacturing this class of truck, the robust BX Series forklifts are rugged, proven, and operator friendly. The BX Series offers the perfect combination of form and function, including a tight turning radius and advanced full suspension.

BX 4-Wheel Sit Down Forklift

- 3,000 lb. To 8,000 lb. Capacity
- 100% AC brushless motor system (hydraulic pump & drive motor)
- Regenerative Braking Efficiencies
