## Security Locker

Lockers provide open and secure storage of personnel individual equipment.

Features Bi-Parting center meeting doors and multiple point locking systems.

Secured galvanized wire is designed in a grid pattern and welded in each intersection, making these lockers the premier choice in safety, security and storage needs

**Rack Backing**

Welded wire panels and doors bolt onto existing pallet and rack frames. One or more pallet levels can be secured with others left open.

## Heavy Duty Steel Cabinets

Strong Hold Heavy Duty Steel Cabinets are constructed with high tensile strength 12 gauge steel featuring one piece, wrap around body construction.

Cabinets are assembled with seam welding and hand welded hinges with evenly distributed load capacities on adjustable shelves and drawers. Flush interior cabinet bottom and 12 gauge steel forklift base allows for fully loaded mobility.
